

CHEN Siyuan

[Career Portfolio | Siyuan CHEN](#)

Siyuanchen8@LN.hk | (+86) 16676778416 (+86)18025411359 (+852) 54921198

8D, Building 89, Taoyuan Village, Nanshan District, Shenzhen City, Guangdong Province, China

EDUCATION

Guangdong Polytechnic Normal University

Sep 2020-Jun 2024

Bachelor of Engineering in Mechatronic Engineering | GPA: 3.15/4.0

- Courses: Electric Circuit, Motor Control Technology, Engineering Materials, Mechanical Parts Surveying Practice, Engineering Mechanics, Analog Electric Technology, Electrical Control and PLC, Circuit Design Software, Mechatronic System, Embedded System Design, CNC Technology

Bachelor of Arts in Chinese Language and Literature (Minor) | GPA: 3.07/4.0

- Courses: Speech and Eloquence, Foreign Literature, Application Writing

Lingnan University

Pursuing a graduate degree, majoring in Data Science.

- Courses: Data Science Project, Foundation of A.I, Machine Learning for Business, Practical App of Deep Learning, Blockchain, Data Mining, Database Management, Healthcare Analytics, Programming for Data Science, Statistics for Data Science

INTERNSHIP

Shenzhen Zhongfujin Technology Co., Ltd.

Jul 2023-Feb 2024

Patent Documentation Editor, Intern

Aug 2023-Feb 2024

- Studied patent documentation guidelines to master key writing requirements for applications and specifications. Clarified mandatory elements, explained technical background and implementation, defined protection scope.
- Participated in three semiconductor equipment patent projects, gained understanding of device mechanics and innovations through discussions and on-site observations, then translated technical details into patent applications.
- Revised patent applications iteratively based on office feedback, refined language and cross-checking technical accuracy, and finalized editing for all three patents.
 - ✓ An LCD Sealing and UV Adhesive Dispensing Machine
 - ✓ A Stage Plate for Exposure System and an Exposure System
 - ✓ An Auxiliary Disassembly Device and a Disassembly Machine

Electrical Engineer, Intern

Aug 2023-Sep 2023

- Disassembled faulty equipment circuits, recorded and labeled layouts to facilitate subsequent debugging.
- Reconnected circuits per schematics, then powered on to verify correct connections and functionality.

Sample Testing Technician, Intern

Jul 2023-Aug 2023

- Sorted small items like gears and tools by type and use, and cataloged their origins and dates.
- Assembled parts per design specs, measured basket dimensions' post-assembly, and compared results with drawings.
- Evaluated diaphragm components' fatigue resistance to bending deformation for compliance with requirements.

SKILLS

- Professional Skills:
 - Electromechanical Control: Mitsubishi PLC Programming, CAD/SolidWorks Mechanical Modeling, KingView SCADA Software,
 - ABB Robot Studio Robot Simulation, Mastercam CNC Programming
 - ML: Python, C++, C#, Excel, RStudio, KNIME Analytics Platform, R studio, Weka, MATLAB,
 - In database management: MySQL Workbench (relational), MongoDB (non-relational)
 - UAV Simulation: ardupilot
- Language Proficiency: Chinese (native); English (advanced, IELTS: 6.0)
- Professional Qualification: Advanced Electrician Certification, Advanced Milling Technician Certification, Certificate of Putonghua Proficiency Level 2 Grade A
